RE: Pepco Energy Services – Atlantic City

Dear Jeff:

I am sending you this **Thank You** note for the great work you and your team performed on our condensate line repair last week. We utilize a lot of contractors for support at our operating facilities and always work to develop a relationship with those that understand our safety culture along with our operating principles.

Belco Pipe Restoration hit a home run on all facets of this job. Your team came fully prepared with all the necessary safety equipment, tools for the job and a work commitment to stay until the job was complete. Even when we encountered a problem you provided options, not complaints to offer as a resolution. This was greatly appreciated and exactly what we look for in our contractor partners.

Your entire team was a pleasure to work with. Be sure to tell them all Thank You on my behalf.

I look forward to future opportunities as we improve our condensate distribution system.

Sincerely,
